

Palmetto Gun Club

Instructor Lead Classes at PGC in 2019

The instructor lead classes offered at PGC are available to all PGC Members and their direct family members – and invited guests. These provide opportunities to learn, brush up, or review skills, and are also an excellent way to introduce family members and provide a solid foundation in a variety of shooting disciplines.

Direct Family Members include: Spouse, grandparents, parents, children, children's spouses, brothers, sisters, and grandchildren.

Invited Guests are those whom a member has recommended. These could be a friend, relative who is not a direct member, neighbor, workmate, or other acquaintance.

Note: Individuals on the membership wait list may attend classes allowing non-members at the member rate.

In the basic shooting classes (NRA Basic Pistol & NRA Basic Rifle) the club provides guns, ammunition, and written training materials. The students provide a good attitude, hearing and eye protection. In the NRA reloading class the club provides all the materials too.
