

High Power Match Report

DECEMBER 2024

The weather was not a good day to shoot. Rain all day with moderate ground fog made the shooting a challenge. Due to the rain and muddy conditions, we modified our match to a 3 X 600 instead of the typical events we shoot. The turnout was small because of the weather but for those of us who shot we had fun.

Name	1st String	2nd String	3rd String	Total
John Teachey	200-9X	196-7X	200-8X	596-24X
Brian Turlington	195-7X	196-11X	196-8X	587-26X
Scott Johnson	196-6X	194-7X	194-9X	584-22X
Bob Wills	184-3X	171-1X	190-3X	545-7X

Our next match will be a CMP Match on January 25th gate opens at 08:00 and first shot is 09:15. We will be shooting the CMP High Power Standard Course 80 shots.

I would like to work with any PGC Club member who wants to give our sport a try. If you are interested in shooting the match but need some help with equipment, give me a call or email and I will try to help you get set up for a match.

Safe Shooting

Bob Wills
