

High Power Rifle Match

November 28, 2020

We held our normal monthly high power rifle match on the 28th of November. It was a full day of rain. We only had 9 shooters but with our new electronic targets we are starting to see shooters from Columbia come to the match for the first time. The targets worked well, and all shooters found the new system very enjoyable to use and I had comments that everyone will make this a normal match to come to. We have a range capacity of 28 so we have some advertisement to do and get the work out but that will come in time.

The match winner was James Wells with a 766-27X. Well done James under very hard conditions.

Our next match will be December 26, 2020 and this is a club event only NOT AN NRA or CMP approved match. They will start up in January. Being so close to Christmas I do not expect a large turnout, but we will see.

If any member would like to see and or try high power rifle drop me an email and I will make arrangements to meet you at the range and instruct you on the course of fire and equipment needed.

Best Regards,

Bob Wills

HP Match Director
