

# High Power Match Report

## November 2023

We had five members come out to shoot after the Thanksgiving holiday. We really lucked out with the weather, full sun, 65 degrees and light wind.

Brian Turlington (USCG) won the match with a score of 784-32X "Outstanding". Brian is a PGC member who has shot for the USCG national rifle team and now that he has some shore leave, he is able to shoot on a more regular basis with us.

If you are a PGC member and would like to give NRR / CMP High Power shooting a try, give me a call and I will walk you through the process. All you need to give the match a try is 100 rounds of 223 ammo, and I can help you with an AR-15 for the day. It's a lot of fun.

Safe Shooting
